FORSYTHE, Mont, April 26.-The strong arm of the law has reached out and seized the Montana army of the commonweal. The army 650 strong came in here from the west at 10:45 last night.

Its leaders gave it out that the train would remain here until morning. At 11:30 however, the engineer went to the round house and deliberately proceeded to take out a fresh engine and prepare for the trip eastward. In the meantime, Col. Page of Fort Keogh, had secured a special train and was thundering down the road to meet the train-stealing con-

tingent. He came into Forsythe shortly after midnight and found a large part of the Coxey army asleep in boxcars. The sur-prise was so complete that the Coxeyites gave up without a struggle. The troops left most the men aboard the train and surrounded it. The capture was effected by a company of 250 infantry men from

NEW YORK, April 26.—Upon receipt of information of the capture of Hogan's band of Coxey pilgrims near Miles City, Mont., by the military from Fort Keogh, James McNaught, counsel for the North-ern Pacific in this city, wired to J. H. Mitchell, Jr., at St. Paul, Minn., and Messrs. Cullen and Toole of Helena, Mont., to proceed against the prisoners days stop there. before Judge Knowles, for contempt of pany's train.

Mr. McNaught also instructed the western lawyers to prefer charges of con-spiracy under the laws of Montana against the mob and a charge of feloni-ous assault based on the fact of their firing on deputy United States marshals.

The News at Washington. Washington, April 26. - Advices from the seat of war in Montana were slow in coming to hand at the war department this morning, but this is probably accounted for by the considerable difference in time between Washington and Montana.

About noon a dispatch came to the army headquarters from Col. Swayne, commanding the department of the Dakota, reporting the capture of Hogan's commonweal by the twenty-first infantry under command of Lieutenant Col. Page, at Forsythe, Montana.

The problem is now what to do with the captives. Col. Swayne had instructions to turn them over to the United States marshal, but it is feared that the latter at present cannot take care of all the prisoners. The attorney general is awaiting orders to hear from him and will lead assistance within his power. At the war department it is believed that the marshal will simply hold on the

ring leaders in the movement and return with them to Butte for such action as the court may direct. The others, it is presumed, will break up their organization and disperse.

The Vandalia Crowd. The war department has taken no action toward interfering with the Frye party, which captured a train on the Vandalia road in Indiana yesterday and will probably not do so unless application for assistance is made from the governor of Indiana. The Vandalia line is not operating under the direction of the United States courts, and therefore the federal government can not take the initiative in moving against the train steal-

It is evident that the national authorities are somewhat disappointed and cha-grined at the failure of the governors and local authorities in western states to do their full duty in such cases as that happening in Terre Haute yesterday. along it is thought in official circles here shown a disposition to refrain from interfering with these organized bodies, even when they have violated property rights and the laws of the states, each locality contenting itself with transferring the evil as rapidly as possible to the neighboring town or state as the easiest way to get rid of the

The army was depleted by four members, but no one was hurt. A party of Hungarians, a part of the thirty-tive recruits taken in here, who had been drinking during the day, came to blows around one of the camp fires. One man was knocked into the fire but rolled out immediately and began shooting. The police who were posted near, scattered the crowd, but captured only one man, who refused to give any name but "Jack the Ripper." He was sentenced today under that name to ten days in the work-

Three of the other men took to the woods and have not been heard from. The exit of the Coxeyites from town today was a triumphal one. Ten mounted deputies escorted the party to the county line, the Independent drum corps playing "Maryland, My Maryland," while the commonweal band joined in at intervals. ROCK ISLAND MAY HAUL THEM. Road Said to Be Suffering a Severe Boy-

cott From Kelly Sympathizers.

ATLANTIC, Iowa, April 26.-A story is current here that a blind pool has been formed by the C. B. & Q., the North-western and the Rock Island railroads for the reimbursement of losses in traffic secured by the company along whose lines the Kelly army passes, It was further stated that the Rock Island, in view of its recent and prospective

losses is seriously considering the question of disrupting the pool and furnishing the industrials and furnishing the industrials with a train to Chicago and while the interested officials refused to confirm it, they also refused to make a denial. In the conversation referred to, the forma-

tion of a pool was outlined as follows: When the industrial army reached Council Bluffs, and the demands of the people for transportation for the men became emphatic, a meeting of officials of the three roads was called for in Chicago and the advisability of furnishing

a train was discussed. The fact that the refusal would result in a serious loss to the road selected by the army for its line of march was an important factor in the conference, and it was recognized that the fear of interrupted trains and the enmity of Kelley's sympathizers would cost the affected road much more than the carrying of

the army to Chicago.

The result of the conference was a secret pool which has since been in-It was satisfactory for a time, the Rock Island being reimbursed for the good sized loss it has already insurred, but it is said the officials of the road have received so many threatening communications from Kelly's sympathizers and the indications for a perpetual semiboycott of the road were so strong that the fact that the pool could not cover the roads future losses, impressed itself

upon the management. As a result, the agitation of the question of furnishing a train, and the re-gaining the good will of the multitude of Kelly sympathisers, is again on. General Superintendent Dunlap, of the Rock Island road, was here last night regard-

ing the matter. "Such a pool may have been formed," he said. "As I left Chicago last Thursday night, it could have been done without my knowledge, and I would not necessarily have been informed of such an arrangement. I will say, however, that I do not know of such The Rock Island's loss by this thing has already been heavy, much more heavy than the cost of carrying the men to Chicago, would have been, but I cannot say what action if any, was taken to cover such loss."

ALARM AT TACOMA.

Tacomaites Profess to He Scared at the Industrials

TACOMA, Washn., April 26.-Considerable apprehension has existed here in regard to the industrial army movement. It was feared that the army from Tacoma and Seattle, which will center at Meeker Junction in a few days would seize a train and cause trouble.

Prompt action on the part of the federal authorities has done much to dispel this fear; about fifty deputy marshals were sworn in yesterday in compliance with orders from the circuit court. Fourteen were sent to Meeker Junction and the rest placed about the depot yards and at the car shops. The federal authorities announce that they can secure force enough to prevent any stolen train getting out of the state.

Three Hundred Conveyances Furnished for Kelly's Command Today.

ANITA, Ia., April 26.—After Kelly's army left Atlantic today about twenty of the men quit the ranks and returned to the town expected to ride on the outgo-ing freight trains. They were found in a box car and clinging to the bumpers. The authorities promptly put them under arrest. The men offered no resistance

and quietly went to jail. Many farmers met the army along the route and before Adair was reached about 300 wagons were in line and nearly all the men who followed the road were given an opportunity to ride. Many of them took a short cut down the railroad tracks and tramped the entire distance. The army was quiet and orderly throughout the entire march.

to give her opinion of the commonweal movement, Mrs. Lease said: "I liken it to the John Brown raid in Virginia. It is the beginning of the end, and I regard it as a portentous movement. Robert J. Stewart Makes Away With \$1,600

Belonging to A. O. U. W. Lodges of This City.

HOW EXPOSURE CAME.

Stewart Confesses That He Used the Funds.

Stewart Won't Be Prosecuted-Lodges Not Crippled.

Robert J. Stewart, one of the best known lodge men in Topeka, admits that he is a defaulter to the amount of at least \$1,600 in A. O. U. W. lodge No. 3 and Capital Legion, Select Knights, No. 1.

Stewart, who has for several years been officially connected with these two lodges as Financier, has confessed a shortage of \$1,000 in his accounts with No. 3, A. O. W., and of \$600 with Select Knights

Mrs. Stewart says her husband attempted to kill himself last night by taking poison, but that he is still alive and is able to sit up today.

The defalcation was discovered through the officers of Select Knights No. 1. Last Saturday H. C. Streeter, commander of this lodge, was notified by Grand Treasurer Ford of Emporia, that Legion No. 1 had been suspended for the non-payment of assessments. Mr. Streeter went to Emporia Monday and made an investigation, finding that his lodge had four unpaid assessments with the grand lodge. He came back to Topeka and laid the matter before Mr. Stewart and asked him to account for the shortage with the grand lodge. Stewart at once admitted that he had misappropriated lodge funds.

An Investigation Ordered. At a meeting of the Legion Tuesday night a special committee was appointed to investigate into the matter and see

how much the lodge is short. The officers of the Legion reported their discoveries to the officers of No. 3, A. O. U. W., and on making a little investigation the officers of No. 3 discovered that their lodge funds was also short | tlement on account of Mr. Stewart's financiering. Master Workman D. S. Myers and other officers of the lodge laid the mat-

ter before Stewart yesterday and de-manded an explanation and ordered him to turn over the books. Stewart then admitted that for about four years he had been appropriating

lodge money to his own use, but had carefully concealed his peculations from of his accounts they always found everything all right, because they only saw one set of books. A Meeting Held Last Night.

A meeting of Lodge No. 3 was held last night, at which Stewart's stealings were made public, and John Putnam, proprietor of the Central Barber shop, was elected financier to succeed the de faulting officer, while Master Workman Myers was given the duty of straightenout the financial matters of the Stewart lives in a brick house west of

There will be no criminal prosecution in connection with the affair, and the lodge will not call on the bondsmen, who are Dr. A. J. Huntoon and C. Bauerschmidt.

Commander H. C. Streeter of Select Kuights No. 1 said: "We discover that we are between \$300 and \$400 short with the Grand lodge, besides losing some-thing out of the general fund, but the legion has other resources, and will be able to stand up under the loss.
